Session

List

Vision: Upcoming Features and Software Roadmap

Learn about recent updates, what's currently in development and new planned features.

Success Snapshots: Real-World Wins

Insights from providers who use Vision to solve everyday challenges and drive real results – one smart move at a time.

Help Subscribers Help Themselves: Empowerment Tools and Best Practices

Explore Vision's new self-service tools and how they can improve the customer experience and reduce strain on your team.

Ready, Set, Self-Serve: A Hands-On Workshop to Set Up Subscriber Workable Tasks

Roll up your sleeves and set up subscriber workable tasks in a sample workflow. Our team will guide you each step of the way.

Vision in Your Pocket: Mobile App Updates

We'll walk through Vision's native mobile app for iOS and Android and the latest features designed specifically for field teams.

Marketing That Converts: What's New in Vision's Toolkit

From public shopping cart upgrades to referral tracking and abandoned cart tools, check out the latest features to help you add more subscribers.

Session

List

Introduction to Vision's New Door-to-Door Sales Tools

Streamline sales canvassing, capture leads in real time and empower internal and third-party sales agents.

Data Lakes and A.I. - The Future of Intelligence Inside Vision

How Vision will power smarter insights across sales, marketing, network management and finance – and what that means for your business.

MDU Management – Practical Tools

See how providers are using Vision to handle apartments and communities with ease—offering bulk pricing, managing shared infrastructure, and keeping service consistent.

Webhooks 101: Connect Vision to Your Systems

What webhooks are, how they work in Vision, and how they can streamline operations by triggering real-time actions as part of your processes.
